STRIKERS HOLD UP MONUNION MEN

Two Trainloads of Workers Are Kept From Coming Into Chicago.

FANATIC ATTEMPTS MURDER.

Hunger and Destitution Begin to Show Themselves in the Homes of the Idle Men, and Cause Much Suffering.

REPUBLIC SPECIAL Chicago, July 28.-Two trainloads of counion men from Eastern points were stopped by strikers at 11:30 o'clock to-day between Kensington and Hammond, on the Lake Shore and Michigan Southern and Erie railroads. Several hundred negroes were compelled to disembark on the

careful plans to intercept the trains, A detachment of strikers left Chicago early this morning for the appointed place. Telegrams from spies on the trains furnished information as to the time of arrival, and the number of nontime of arrival, and the number of non-unionisits. The strikers waited on the railroad right of way with red flags in readiness. The trains were promptly stopped and the Chicago labor agitators got aboard. The negroes were told that a strike was in progress at the packing-houses in Chicago, and that it would be healthier for them to get off the train then and there.

healthier for them to get off the train then and there.

John Ukanazitsch, a Lithuanian anarchist, to-day entered the Exchange building at the stock yards and attempted to assassisate George T. Ward, a well-known commission man. With no word of warning the man struck Rogers, a clerk, in the back. The clerk turned, and his assailant ran into the hallway. Rogers saw that he held a large knife in his left hand, and had evidently struck with his right.

Mr. Ward was just returning to the of, fice, and encountered the man in the hall. The knife was raised to strike, when Cheever and Lebeau, the only two who had not run for safety, selzed the man's arm. They told Mr. Ward to get into his office and lock the door, which he did just in time, as his assailant wrenched himself free and made another attempt to attack him. Mr. Ward does not know the man Ukanazitsch said he intended to kill all the packers.

A crowd gathered about the young woman's home, and the effigy was bolated upon a telegraph pole. The cries of the women in the crowd aroused the girl, and she soon appeared at the front door. When she saw that an attempt had been made to reproduce her personal appearance, and that the effigy had been hanged to a telegraph pole with a card portraying her as a scab, the young woman broke down and wept.

As the girl stood with bowed head the women in the crowd assalled her with "Scab" and "Traitor." Finally the girl raised her head, and stepping resolutely forward, said:

This quieted the growd and the efficy was removed. Although a relief fund of \$60,000 was voted by the unions to alleviate the dis-tress of stock yards strikers and their families, who are in want, there is little change to-day in the condition of those huddled in the squalid district generally referred to as "back of the yards." Instead of complaints there is a dispo-sition to conceal destitution. Welch's Letter Withdrawing From Contest for State Chairmanship Indorsed by Representative Party Men.

At a meeting of the Good Government Roosevelt Republican Club at No. 2309 Eugenia street last night resolutions were adopted which approved in no uncertain terms the letter which was sent by C. A. Weich to the Republican bosses at St. Jo-seph during the Republican State Con-

vention.

Mr. Welch, who was the active manager of the Republican city campaign two years ago, was a candidate for chairman of the Republican State Committee until Tuesday last. At that time, realizing that circums were most up. cumstances and conditions were most un-propitious, he issued a letter in which he stated that he was no longer a candidate for the state chairmanning. stated that he was no longer a candicate for the state chairmanship.

In his letter he stated that in view of "the unholy alliance which existed between the anti-Roosevelt Republicans and the boodle element of the Democratic party" to nominate the St. Joseph ticket and which, by the way, culminated in success, Mr. Welch declined to permit the use of his name further in connection with the office, and withdrew from the contest.

OUR NATIONAL DISEASE

Caused by Coffee,

Physicians know that drugs will not correct the evils caused by coffee, and the only reinedy is to stop drinking it.

Dr. W. J. Allison, of Heber, Ark., says:
"I have been a coffee-drinker for 50 years, and have often thought that I could not live without it, but after many years of suffering with our national maiady, dyspepsia, I attributed it to the drinking of coffee, and after some thought determined to use Postum Food Coffee for my morning drink. I saw that Postum was made carefully with directions, and found it just suited my taste. At first I used it only for breakinst, but I found myself getting so much better that I used it at all meals, and I am pleased to say that it has entirely cured me of indigestion. I gained it pounds in a months and my general health is greatly improved.

"I must tell you of a young lady in Illinois. She had been in Ill health for many years, the vital forces low, with but little pain. I wrote her of the good that Postum did me and advised her to try it. At the end of the year she wrote me that Postum had entirely cured her, and that the had gained 40 pounds in weight and all like herself again.

The building was well filled, more than 500 Texans and others, including many of the hostesses and Executive Commissioners of the other States, being present. One of the greatest drawing cards of the afternoon was Mrs. L. L. Jester of Tyler, whose appearance at the Texas building has always been marked y the presence of many music lovers. One of the features of Mrs. Jester's programme was her singing of "It Was e Dream," by Alfred G. Robyn, the wellknown St. Louis composer, who, as a compliment to Mrs. Jester, was the ac companist. After the programme had been given, Mrs. Jester was encored again and again, repeated calls being made for "La Paloma," which seems to be a fa-vorite at the Texas building. Mrs. T. K. vorite at the Texas building. Mrs. T. K. Hedrick, a former resident of Texas, but now of St. Louis, received an enthusiastic reception, and was encored several times. Music will constitute the entertainment at the Texas building this afternoon. William G. Stuart, who plays David Crockett at the Delmar Garden production of "Louisiana," will sing, and Alfred Westphalen, violinist, and Theodora Sturkow and Wilbur P. MacDonald, planists, also will appear.

Mrs. Parks, commissioner and hostess and Albert Jones, representing the Mary land Commissioners to the Pair, have is sued invitations for an informal recep sued invitations for an informal reception by the Maryland Commission to the members of the press at the World's Fair to-night. Included among the guests of the commission will be the working newspaper men and women of St. Louis and outside publications, and the members of the local press bureau of the Exposition. Mrs. Fisher will be assisted in receiving by Mrs. Samuel Middleton and Miss Robertson of Baltimore, and Mrs. Emma D. Nuckols, one of the hostesses of the Missouri building.

Chandeliers once the property of Marie Antoinette now adorn the Rhode Island building at the World's Fair. The chandeliers are of cut glass and were presented by that famous woman of France to Lafayette and by him to the First Infantry of Providence upon his first visit to America, in 1828. The historical relies were neglected by the owners, being consigned to old bushel basket and placed in one of the storerooms of the armory. Here they lay for years, their spangled prisms detached and generally dilapidated, until they were recovered by the Rhode Island Commission and placed in good condition. Few of the prisms were missing and it was easy to restore them to their proper places.

The regular semimonthly reception of the Illinois Commission to the citizens of that State visiting the Fair, Exposition officials and representatives from the various States and Territories will not take place to-night, having been postponed to next Tuesday evening. The postponement was owing to the inability of several of the Commissioners to be present.

In one corner of the Indian Territory building is the trunk of a tree, the removal of which from the Territory to the State Pavillon marks another era of the progress of civilization in that region. The tree is the famous execution tree of the Seminole Nation. It was taken from Wewoka, the capital, and at least sixteen men have been executed under its spreading branches. Before the laws were executed by the United States Government, those who were sentenced to die were stood up against this tree and shot to death. Many bullet holes tell a grewsome tale of the end of men who had committed crimes of various degrees in the Seminole Nation.

"Pennsylvania, the Building of an Em pire." is the title of a 100-page publication now being distributed at the Pennsylvania building. The book was edited by James H. Lambert, A. M., executive officer of the Pennsylvania Commission, who is the as-sociate editor of the Philadelphia Press.

If the Government ex-hibit were the only one on the grounds, it would be worth one's while to come here." An added feature of the programme given by Kern's Orchestra at the Mis-souri building yesterday afternoon was a solo by Wallace Neidringhaus, a St. Louis vocalist.

William C. Buskett, the Executive Commissioner for Montana, departed yester day for Rolla, Mo., to spend a few days with his father.

Miss Blanche Sonneman of Vandalla, who has been the guest of Mrs. J. J. Brown, one of the hostesses of the Illi-nois building, for several days, will re-turn to her home to-day.

RESERVES DECISION IN STRIKE CASE

Judge Holder Will 'Announce Finding in Injunction Proceedings in Few Days.

ARGUMENTS ARE SUBMITTED.

Packers on Both Sides of the River Claim to Have Nearly Enough Men to Do Their Work.

Interest in the strike on the East Side vesterday centered in the motion to dislve the injunction against the leaders, which was argued before Circuit Judge R. Holder reserved his decision and it is understood that he will make it public in a few days. He departed for Chicago last evening.

The attorneys for the strikers were Thomas Webb and D. J. Sullivan of East St. Louis. They presented affidavits tending to show that the strikers had been or derly and peaceable, and that there was no reason for the temporary restraining order which had been granted by Judge Holder a week and a half ago. The packers were represented by Jack Borders of Chicago, Daniel McGlynn of East St Louis and former Circuit Judge M. W. Schnefer of Belleville. They on their part presented affidavits to support their claim that the injunction should not be dis-solved, but should continue in force.

The East St. Louis packers yesterday asserted that they were getting many men, and that within a few days, and possibly a week, they would be able to run their plants without the assistance of any

of the strikers.

At all of the packing-houses the statement was made that many of the strikers had gone back, and that others had sent word that they would return to work in a few days. Officials of the packing plants were apparently jubilant at the turn of affairs, and say they now are sure of getting along in spite of the strike.

PERSONALIZED ASSOCIATION. RECEIVED 4.500 CATTLE.

The receipts of cattle at the Stock Yards resterday were 4,500 head, the majority of which were bought by packers. The buyers for the packers said they would buy almost the usual amount of cattle from almost the usual now on.

Strikers' representatives still assert that although killing is being done it is done by unskilled labor, and that the packers are thus losing so much on their by-products and the waste in the cutting that they will be glad to get the old hands back.

The drugging of the coffee at the Ar-

hands back.

The drugging of the coffee at the Armour plant Tuesday night yesterday caused some trouble among the labor agencies in inducing men to go there to work. All sorts of arguments were used by the labor agents in their efforts to induce the men to go to work.

The strikers yesterday received a donation of two tons of dressed beef from the Union packing Company of St. Louis and several wagon loads of bread were distributed by East St. Louis bakers.

SKILLED WORKMEN REQUIRED.

SKILLED WORKMEN REQUIRED Officers of the St. Louis Dressed Beef and Provision Company said last night that but little effort is now being made to secure men, as they have about as many as they can handle.

secure men, as they have about as many as they can handle.

There is still a great demand among employment agencies, however, for skilled butchers and meat cutters, and the strikers, who claim to be well informed concerning the equipment of the packers, say that they are sorely in need of such men. They supplement their statements by saying that agents of the packers have made repeated efforts to get their old butchers. The strike leaders last night emphatically denied the statement made by the packers that some of their men had returned to work. They admitted, however, that a few of them presented themselves at the company's plant yesterday morning prepared to go to work.

It is said that when they saw how small

their number was they laid down their tools and returned to the morning mass meeting, where they gave an account of their action. They claimed they were led to believe that most of the strikers would be in their old places yesterday morning. MRS. CHARLES HURST DIES

To Talk on Education Miss Maria del Pilar Zamora, Superintendent of the Model School in the Philippine section, will depart for Chautauqua Lake, N. Y., early next week to deliver a lecture before the Chautauqua Assembly on "Education in the Philippines" on August 1L.

A MAN CAN'T swim in shackles, of his winning a race, but a question of of his winning a race, but a question being able only to keep affoat. The m who is suffering from malnutrition is like the fettered swimmer. His stomach and its allied organs of digestion and nutri-

tion are diseased.

It is not a question with him of winning in the race for business but of simply keeping up under any circumstances. Whenever disease affects the stomach the blood and the health of every or-

gan of the body. food converted into tion is the life of the body and every organ of it. Doctor Pierce's

Golden Medical and other organs of digestion and nutri-tion. It purifies the blood and enables the perfect nutrition of the body which

means perfect health.

"For six long years I suffered with indigention and my liver and kidneys, which baffled the best doctors in our country," writes E. L. Ransell, Esq. of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long-time, and after taking a 'cart-load' of medicine from three doctors I grew so bed I could hardly do a day's work. Would have death-like pains in the side, and blind spells. I began taking Dr. Pierce's Golden Medical Discovery and "Pleasant Pellets." Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce."
